Life on Other Planets By EMANUEL SWEDENBORG

Is there life on other planets? This intriguing question is still being debated in scientific circles, but Emanuel Swedenborg attested that he had actually spoken with spirits from other planets in the afterlife. Originally published in 1758, this startling book details Swedenborg's conversations with angels unlike any other spirits he encountered in the afterlife. Spirits from Jupiter, Mars, Mercury, Saturn, Venus, and the moon discuss their lives on other planets and how their cultures differed from those of earthly life. Swedenborg also explains why the Lord chose Earth as the planet on which he would be born. Translated by the late Cambridge scholar John Chadwick and co-published with the Swedenborg Society of London, this volume also offers an introduction by Dr. Raymond Moody, author of *Life after Life*, who ruminates on how modern science is validating some of Swedenborg's assertions.

Editorial Review

About the Author

Emanuel Swedenborg (1688-1772) was a Swedish scientist, nobleman, and theologian who spent his life investigating the mysteries of the soul. Born in Stockholm to a staunchly Lutheran family, he graduated from the University of Uppsala and then traveled to England, Holland, France, and Germany to study the leading scientists of the time. He gained favor with Sweden's King Charles XII, who gave him the position of overseer of the Swedish mining industry. Later, he was given a seat on the Swedish House of Nobles by Charles XII's successor, Queen Ulrika Eleonora. Between 1743 and 1745 he began to have visions of heaven, hell, and Jesus Christ which resulted in a stream of books about the nature of God, the afterlife, and the inner meaning of the Bible. He devoted the last decades of his life to studying Scripture and presenting his own unique theology to the world.

Translator John Chadwick (1920-1998) was the decipherer, along with Michael Ventris, of Linear B, the script of the Mycenaean civilization. For over thirty years, he lectured in classics at Cambridge University, during which time he wrote *The Decipherment of Linear B* and *The Mycenaean World*. Mr. Chadwick also translated several of Swedenborg's works for the Swedenborg Society.

Users Review

From reader reviews:

Diana Rush:

Now a day individuals who Living in the era just where everything reachable by connect with the internet and the resources inside can be true or not call for people to be aware of each data they get.
