The Franks were the most successful of all the barbarian peoples to establish a kingdom in the aftermath of the collapse of the west Roman Empire; among their victims were their immediate neighbours, the Alamans, who were swallowed up in the course of Frankish expansion. This volume is a consideration of Franks and Alamans from a series of perspectives, historical, archaeological, and linguistic. The origin of both peoples are considered, as are the settlement patterns of the Alamans, the urban, social, and legal history of the Franks, Frankish involvement in missions to the east of the Rhine, and the role played by the Franks in the development of early medieval incest legislation.
