## Handbook of Acid-Base Indicators By R. W. Sabnis

While acid-base indicators continue to find new applications in an ever-widening range of scientific disciplines, there is no current book that focuses entirely on the subject, nor one that brings together the relevant advances that have evolved over the last three decades. The **Handbook of Acid-Base Indicators** compiles the most up-to-date, comprehensive information on over 200 water-based and solvent-based indicators into a single source.

Organized alphabetically, entries include: common name, other names, CA index name, CAS registry number, Merck index number, chemical structure, chemical/dye class, molecular formula, molecular weight, pH range, color change at pH, pKa, physical form, solubility, UV-visible (Lambda-max), melting point, and boiling point. This resource also offers unique coverage including protocols for synthesizing indicator compounds; data relating to adverse effects, toxicity, and safety; and major applications for each indicator.

The **Handbook of Acid-Base Indicators** contains practical information for widespread applications that include semiconductors, displays, nanotechnology, OLEDs, fuel cells, sensors, security, surface coatings, adhesives, insecticides, agricultural chemicals, textiles, packaging, cosmetics, personal care products, pharmaceuticals, and the detection and treatment of disease.

## **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Marcus Musick:**

With other case, little men and women like to read book Handbook of Acid-Base Indicators. You can choose the best book if you appreciate reading a book. As long as we know about how is important some sort of book Handbook of Acid-Base Indicators. You can add knowledge and of course you can around the world with a book. Absolutely right, due to the fact from book you can know everything! From your country till foreign or abroad you can be known. About simple issue until wonderful thing you are able to know that. In this era, you can open a book as well as searching by internet device. It is called e-book. You may use it when you feel bored to go to the library. Let's examine.

##### **Shane McKeel:**

The book Handbook of Acid-Base Indicators gives you the sense of being enjoy for your spare time. You can utilize to make your capable far more increase. Book can to become your best friend when you getting tension or having big problem using your subject. If you can make reading a book Handbook of Acid-Base Indicators being your habit, you can get much more advantages, like add your personal capable, increase your knowledge about some or all subjects. You can know everything if you like start and read a book Handbook of Acid-Base Indicators. Kinds of book are several. It means that, science guide or encyclopedia or other folks. So , how do you think about this guide?

##### **Joyce Cannon:**

The book Handbook of Acid-Base Indicators can give more knowledge and information about everything you want. Why then must we leave a good thing like a book Handbook of Acid-Base Indicators? Several of you have a different opinion about reserve. But one aim that book can give many info for us. It is absolutely right. Right now, try to closer with your book. Knowledge or information that you take for that, you can give for each other; it is possible to share all of these. Book Handbook of Acid-Base Indicators has simple shape but the truth is know: it has great and massive function for you. You can search the enormous world by available and read a e-book. So it is very wonderful.

##### **William Leone:**

The reason? Because this Handbook of Acid-Base Indicators is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will distress you with the secret the idea inside. Reading this book adjacent to it was fantastic author who all write the book in such incredible way makes the content on the inside easier to understand, entertaining method but still convey the meaning thoroughly. So , it is

good for you for not hesitating having this ever again or you going to regret it. This book will give you a lot of advantages than the other book include such as help improving your talent and your critical thinking technique. So , still want to hesitate having that book? If I were you I will go to the e-book store hurriedly.
