## Neurology: A Queen Square Textbook From imusti

*Neurology: A Queen Square Textbook* is a remarkable fusion of modern neuroscience with traditional neurology that will inform and intrigue trainee and experienced neurologists alike.

Modern neuroscience has penetrated exciting and diverse frontiers into the causes, diagnosis, and treatment of neurological disease. Clinical neurology, whilst greatly enhanced by dramatic advances in molecular biology, genetics, neurochemistry and physiology, remains deeply rooted in practical traditions: the history from the patient and the elicitation of physical signs.

Neurologists, neuroscientists and neurosurgeons working at Queen Square, and advised by an international editorial team, have combined their expertise and experience to produce this unique text. The synthesis of clinical neurology with translational research provides a fresh perspective which is

- Practical
- Multidisciplinary
- Translational
- Integrative

The blend of new science and proven practice underpins this creative approach towards investigating and improving the care of patients suffering from neurological diseases.

### About Queen Square

The world-renowned **National Hospital for Neurology & Neurosurgery** and **UCL Institute of Neurology**, based in Queen Square, London, have an international reputation for training, research and patient care. Research at both institutions leads developments in translational medicine that are transforming the treatment of neurological disease.

## **Editorial Review**

### **Review**

"Having said that, this book is excellent . . . There is a very useful chapter on neuro-ophthalmology by Gordon Plant and colleagues . . . For the punting neurologist such as myself it is a useful addition to the bookshelf, for instant reference if the computer has crashed. Many of the chapters are highly readable."  
(Epilepsy & Behavior, 6 October 2010)

### ***About Queen Square***

The world-renowned *National Hospital for Neurology & Neurosurgery* and *UCL Institute of Neurology*, based in Queen Square, London, have an international reputation for training, research and patient care. Research at both institutions leads developments in translational medicine that are transforming the treatment of neurological disease.

### **About the Author**

**Dr Charles Clarke** has been a consultant neurologist since 1979 and now works at the National Hospital and Whipps Cross Hospital, London. He is the author of *Neurological Diseases in Clinical Medicine* (editors: Parveen Kumar and Michael Clark; publishers: Elsevier). The sixth edition is now in press. He has been closely involved in the book, written originally by consultants at St Bartholomew's Hospital, since the first

edition in 1987. [CC is now retired from NHS practice]

**Dr Robin Howard** has been consultant neurologist at the National Hospital and St Thomas' Hospital since 1992. He has a large general neurology NHS practice and is consultant to three neurological intensive care units as well as directing clinical services for patients with motor neurone disease, myasthenia gravis and sleep disorders. He has written extensively - more than 100 peer reviewed papers and 30 review articles/book chapters.

**Professor Martin Rossor** has been in consultant practice since 1986. He is Professor of Neurology at the Institute of Neurology, honorary consultant neurologist at the National Hospital and St Mary's Hospital. His particular clinical and personal interests are degenerative dementias and cognitive neurology.

**Professor Simon Shorvon** was appointed consultant neurologist at the National Hospital in 1983. His special interests are in epilepsy, imaging and epidemiology. He was previously Medical Director of the National Society for Epilepsy, the leading UK charity in the field of epilepsy and Chairman of the University Department of Neurology in UCL. He has published over 250 peer reviewed articles and 100 chapters and books.

## Users Review

### From reader reviews:

#### **Yolanda Osuna:**
