Oceanography: An Invitation to Marine Science By Tom S. Garrison

Cengage Learning in partnership with National Geographic Society brings course concepts to life with interactive learning, study, and exam preparation tools along with market leading text content for introductory oceanography courses.

OCEANOGRAPHY provides a basic understanding of the scientific questions, complexities, and uncertainties involved in ocean use, as well as the role and importance of the ocean in nurturing and sustaining life on the planet. Bestselling author Tom Garrison emphasizes the interdisciplinary nature of marine science, stressing its links to biology, chemistry, geology, physics, meteorology, astronomy, ecology, history, and economics. Whether you use a traditional printed text or all digital Oceanography CourseMate alternative, it's never been easier to better understand the complexities involved in how we study and use the ocean.

Editorial Review

About the Author

Tom Garrison (Ph.D., University of Southern California) was an inspiring professor of Marine Science for over 47 years at Orange Coast College in Costa Mesa, California -- one of the largest undergraduate marine science departments in the United States. Dr. Garrison also held an adjunct professorship at the University of Southern California and won multiple teaching and education awards during his career. He was a founding member of the Consortium for Ocean Science Exploration and Engagement, wrote a regular column for the journal Oceanography, and enjoyed writing for National Geographic magazine. Dr. Garrison was an Emmy Award team participant as writer and science advisor for the PBS syndicated Oceanus television series, and writer and science advisor for The Endless Voyage -- a set of television programs in oceanography. His widely used textbooks in oceanography and marine science are the college market's best sellers, and 42 years of teaching allowed him to pass his oceanic enthusiasm to more than 65,000 students in his career.

Users Review

From reader reviews:

Laura Mason:

Do you have favorite book? Should you have, what is your favorite's book? Guide is very important thing for us to understand everything in the world. Each reserve has different aim as well as goal; it means that reserve has different type. Some people feel enjoy to spend their time for you to read a book. They are reading whatever they acquire because their hobby is actually reading a book. Why not the person who don't like looking at a book? Sometime, person feel need book after they found difficult problem or maybe exercise. Well, probably you should have this Oceanography: An Invitation to Marine Science.

Andrew Thompson:
