### **Rendezvous with Rama** By Arthur C. Clarke

An enormous cylindrical object appears in Earth's solar system, hurtling toward the sun. A ship is sent to explore the mysterious craft-which the denizens of the solar system name Rama-and what they find is intriguing evidence of a civilization far more advanced than ours. They find an interior stretching over 50 kilometers; a forbidding cylindrical sea; mysterious and inaccessible buildings; and strange machine-animal hybrids, or "biots," that inhabit the ship. But what they don't find is an alien presence. So who-and where-are the Ramans?

Often listed as one of Clarke's finest novels, Rendezvous With Rama has won both the Hugo and the Nebula Awards. A fast-paced and compelling story of an enigmatic encounter with alien technology, Rendezvous With Rama offers both answers and unsolved mysteries that continue to fascinate readers decades after its first publication.

## Editorial Review

### Amazon.com Review

An all-time science fiction classic, *Rendezvous with Rama* is also one of Clarke's best novels--it won the Campbell, Hugo, Jupiter, and Nebula Awards. A huge, mysterious, cylindrical object appears in space, swooping in toward the sun. The citizens of the solar system send a ship to investigate before the enigmatic craft, called Rama, disappears. The astronauts given the task of exploring the hollow cylindrical ship are able to decipher some, but definitely not all, of the extraterrestrial vehicle's puzzles. From the ubiquitous trilateral symmetry of its structures to its cylindrical sea and machine-island, Rama's secrets are strange evidence of an advanced civilization. But who, and where, are the Ramans, and what do they want with humans? Perhaps the answer lies with the busily working biots, or the sealed-off buildings, or the inaccessible "southern" half of the enormous cylinder. Rama's unsolved mysteries are tantalizing indeed. *Rendezvous with Rama* is fast moving, fascinating, and a must-read for science fiction fans. Clarke collaborated with Gentry Lee in writing several Rama sequels, beginning with *Rama II*.

### Review

"Mr. Clarke is splendid...We experience that chilling touch of the alien, the not-quite-knowable, that distinguishes SF at its most technically imaginative." --*The New York Times*

### From the Publisher

At first, only a few things are known about the celestial object that astronomers dub Rama. It is huge, weighing more than ten trillion tons. And it is hurtling through the solar system at inconceivable speed. Then a space probe confirms the unthinkable: Rama is no natural object. It is, incredible, an interstellar spacecraft. Space explorers and planet-bound scientists alike prepare for mankind's first encounter with alien intelligence. It will kindle their wildest dreams... and fan their darkest fears. For no one knows who the Ramans are or why they have come. And now the moment of rendezvous awaits -- just behind a Raman airlock door.

"Mr. Clarke is splendid...We experience that chilling touch of the alien, the not-quite-knowable, that distinguishes SF at its most technically imaginative." -- *The New York Times*
