This book is a collection of the best, tools, tricks and techniques developed in 7+ years of grant writing. Every single tool or concept has been field tested and refined via trial and error.

Each one of its chapters provides a detailed explanation of the different building blocks:

- First Steps of Proposal Writing
- Outline of the Technical Proposal
- Introduction
- Context and Proposal Structure
- Methodology
- Organisation and Staffing
- Budget
- Review and Finalization

SECTION 3, lastly, is a collection of 26 Proposal-Specific Writing Tips, that is a series of adjustments you can use in your text right away that make your document more readable and easier to follow.

At the end of the book you will find the proposal structure (for quick reference) and a methodology to calculate your personnel's hourly rate
