Editorial Review

Review

".. The volume is indeed very rich with in-depth, scholarly and analytical contributions made by as many as 50 serious researchers to various aspects of higher education. The empirical insights the various contributors provide are valuable and educational planners and researchers would find the handbook immensely useful."

Journal of Educational Planning and Administration, volume XXI, no. 1, January 2007

From the Back Cover

Higher education is a truly global activity, built around the intersections of international knowledge networks in which institutions, faculty and students explore, create and share knowledge. Virtually all colleges and universities stem from a common organizational model and intellectual history, and academic disciplines are defined worldwide in common terms – the study of sociology in Japan or Germany is seen roughly the same as the study of sociology in Canada or the United States.

The purpose of this publication is to provide a central, authoritative reference source on the most essential topics of higher education. The International Handbook of Higher Education combines a rich diversity of scholarly perspectives with a wide range of internationally derived descriptions and analyses. Chapters in the first volume cover central themes in the study of higher education, while contributors to the second volume focus on contemporary higher education issues within specific countries or regions. Together, these volumes provide a centralized, easily accessible, yet scholarly source of information.

Research scholars and graduate level students in higher education and related fields will find the Handbook useful for advancing their exploration of these central issues, while policymakers and academic administrators will find the thoughtful essays on a particular topic useful for decision-making. Overall, this Handbook provides a centralized collection of scholarship on an essential worldwide social institution.

Users Review

From reader reviews:

David Henry:

What do you regarding book? It is not important along? Or just adding material when you really need something to explain what you problem? How about your extra time? Or are you busy particular person? If you don't have spare time to do others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Every person has many questions above. They have to answer that question since just their can do which. It said that about reserve. Book is familiar in each person. Yes, it is appropriate. Because start from on kindergarten until university need this particular International Handbook
