**Using Evidence of Student Learning to Improve Higher Education (Jossey-Bass Higher and Adult Education)** By George D. Kuh, Stanley O. Ikenberry, Natasha A. Jankowski, Timothy Reese Cain, Ewell, Pat Hutchings, Jillian Kinzie

### **American higher education needs a major reframing of student learning outcomes assessment**

Dynamic changes are underway in American higher education. New providers, emerging technologies, cost concerns, student debt, and nagging doubts about quality all call out the need for institutions to show evidence of student learning. From scholars at the National Institute for Learning Outcomes Assessment (NILOA), *Using Evidence of Student Learning to Improve Higher Education* presents a reframed conception and approach to student learning outcomes assessment. The authors explain why it is counterproductive to view collecting and using evidence of student accomplishment as primarily a compliance activity.

Today's circumstances demand a fresh and more strategic approach to the processes by which evidence about student learning is obtained and used to inform efforts to improve teaching, learning, and decision-making. Whether you're in the classroom, an administrative office, or on an assessment committee, data about what students know and are able to do are critical for guiding changes that are needed in institutional policies and practices to improve student learning and success.

Use this book to:

- Understand how and why student learning outcomes assessment can enhance student accomplishment and increase institutional effectiveness
- Shift the view of assessment from being externally driven to internally motivated
- Learn how assessment results can help inform decision-making
- Use assessment data to manage change and improve student success

Gauging student learning is necessary if institutions are to prepare students to

meet the 21<sup>st</sup> century needs of employers and live an economically independent, civically responsible life. For assessment professionals and educational leaders, *Using Evidence of Student Learning to Improve Higher Education* offers both a compelling rationale and practical advice for making student learning outcomes assessment more effective and efficient.

## **Editorial Review**

From the Inside Flap

### **American higher education needs a major reframing of student learning outcomes assessment**

Dynamic changes are underway in American higher education. New providers, emerging technologies, cost concerns, student debt, and nagging doubts about quality all call out the need for institutions to show evidence of student learning.

The scholars at the National Institute for Learning Outcomes Assessment (NILOA) present a reframed conception and approach to student learning outcomes assessment. The authors explain why it is counterproductive to view collecting and using evidence of student accomplishment as primarily a compliance activity. Today's circumstances demand a fresh and more strategic approach to the processes by which evidence about student learning is obtained and used to inform efforts to improve teaching, learning, and decision-making. Whether you're in the classroom, an administrative office, or on an assessment committee, data about what students know and are able to do are critical for guiding changes that are needed in institutional policies and practices to improve student learning and success.

For assessment professionals and educational leaders, *Using Evidence of Student Learning to Improve Higher Education* offers both a compelling rationale and practical advice for making student learning outcomes assessment more effective and efficient.

From the Back Cover

### **Praise for Using EVIDENCE of STUDENT LEARNING to Improve HIGHER EDUCATION**

"The NILOA leaders who authored this book are uniquely positioned to understand assessment policy, how assessment is implemented on campuses, and how faculty and administrators are using assessment findings. Their concrete examples of consequential—as opposed to compliant—use of assessment evidence will inspire additional efforts to improve student learning on campuses across the country."

—**Trudy W. Banta**, professor of higher education and senior advisor to the chancellor for Academic Planning and Evaluation, Indiana University–Purdue University Indianapolis

"The authors of this volume aim to move the assessment agenda from checking the right boxes on somebody's lists of requirements to essentially contributing to achieving greater student success. A must-read for those who want to use assessment to make their campuses, and their own work, better."

—**Michael S. McPherson**, president, The Spencer Foundation

"To remain a world leader, the United States will need to hit a much higher bar for the level, quality, and scope of students' learning in college. This book provides a wealth of advice for faculty, academic leaders, and external agencies alike on positioning assessment as an essential component in the needed quality improvement effort. Cogently crafted, deeply informed, and intelligently practical, this important volume will help educators tackle the next frontier for quality: (re)designing educational programs, within and across institutions, as guided learning pathways that successfully help students develop essential proficiencies and

produce strong portfolios of meaningful work."

—**Carol Geary Schneider**, president, Association of American Colleges and Universities

#### About the Author

**GEORGE D. KUH** is director of the National Institute for Learning Outcomes Assessment (NILOA) and coprincipal investigator at the University of Illinois.

#### Users Review

##### From reader reviews:

##### **Brenda Schweiger:**

This Using Evidence of Student Learning to Improve Higher Education (Jossey-Bass Higher and Adult Education) are usually reliable for you who want to be considered a successful person, why. The reason of this Using Evidence of Student Learning to Improve Higher Education (Jossey-Bass Higher and Adult Education) can be on the list of great books you must have is definitely giving you more than just simple looking at food but feed you with information that might be will shock your prior knowledge. This book is definitely handy, you can bring it just about everywhere and whenever your conditions throughout the e-book and printed versions. Beside that this Using Evidence of Student Learning to Improve Higher Education (Jossey-Bass Higher and Adult Education) giving you an enormous of experience like rich vocabulary, giving you test of critical thinking that we all know it useful in your day activity. So , let's have it and luxuriate in reading.

##### **David Jones:**

Playing with family in a park, coming to see the sea world or hanging out with pals is thing that usually you have done when you have spare time, subsequently why you don't try point that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Using Evidence of Student Learning to Improve

Higher Education (Jossey-Bass Higher and Adult Education), it is possible to enjoy both. It is great combination right, you still wish to miss it? What kind of hangout type is it? Oh can happen its mind hangout folks. What? Still don't buy it, oh come on its identified as reading friends.

**John Street:**

Do you like reading a book? Confuse to looking for your chosen book? Or your book ended up being rare? Why so many query for the book? But any kind of people feel that they enjoy intended for reading. Some people likes looking at, not only science book but in addition novel and Using Evidence of Student Learning to Improve Higher Education (Jossey-Bass Higher and Adult Education) or others sources were given know-how for you. After you know how the good a book, you feel need to read more and more. Science publication was created for teacher as well as students especially. Those books are helping them to put their knowledge. In some other case, beside science reserve, any other book likes Using Evidence of Student Learning to Improve Higher Education (Jossey-Bass Higher and Adult Education) to make your spare time far more colorful. Many types of book like here.

**Sandra Leggett:**

As a university student exactly feel bored in order to reading. If their teacher requested them to go to the library or to make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their passion. They just do what the instructor want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that studying is not important, boring and can't see colorful images on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Using Evidence of Student Learning to Improve Higher Education (Jossey-Bass Higher and Adult Education) can make you sense more interested to read.
