### Written in the Stars By Jayme Ardente-Silliman

The day thirteen-year-old Sophie Watters went to the Spinners concert was the best day of her life, so far. Not only did she get to see Geoff Mann, her one true love in concert, but she also got to meet him backstage. Convinced more than ever that they are meant to be, Sophie realizes her mom was right, dreams really do come true, and fairy tales are more than just a story. Until Sophie's fairy-tale life is met by an unbelievable tragedy when she lost the one person she was never meant to live without, her mom. Five years later Sophie is still unable to accept her mother's death, and long stopped believing in fairy tales, dreams, and love. Hoping to save Sophie from the pain that has found her, Sophie's father sends her and her best friend Erin to spend the summer with Sophie's Nonna in Italy, a place that holds even more painful memories than home. But what Sophie doesn't realize is that love has a way of not letting go, and her fairy-tale is far from over when her childhood dream resurfaces while in Italy. There she will meet the one person who can fix her broken heart, the one person who can bring her back to life, the only person who can make her whole again, someone completely unexpected, Geoff Mann. But will Sophie be able to get over her fear of love? Can she believe in dreams again? And even more, will she realize she is a dream come true for someone else?

This was most definitely a modern day fairytale romance. Instead of an ordinary girl falling for a prince, it's an ordinary girl falling for a famous singer/teen heartthrob. And I absolutely loved it. It had so much more depth than your typical fairytale. Sophie used to be full of life, someone who never doubted that dreams come true. Ever since her mom died, she has never been the same. Witnessing this heartbroken, lost young woman so scared of love was difficult, but it was also heartwarming to see someone try so hard to get through that wall she has put up for so long. I think a lot of us can relate to Sophie. Whether we've gone through a tragedy like she has or not, we stop believing in fairytales and dreams as we grow older. This story made me believe in those things again. Just because we reach a difficult point in our lives, it doesn't mean we should stop reaching for our dreams. Thank you, Jayme Ardente-Silliman, for reminding me of this and for writing such a fantastic story. Written in the Stars will have you wanting to hold the people you love a little closer, open your heart to others, live life to the fullest, and fall in love either for the first time or all over again. It is an absolute must-read. And if my eyes are not deceiving me, there will be a sequel, which I practically squealed about, 13-year-old-Sophie style.
