Certified Function Point Specialist Examination Guide By David Garmus, Janet Russac, Royce Edwards

The **Certified Function Point Specialist Examination Guide** provides a complete and authoritative review of the rules and guidelines prescribed in the release of version 4.3 of the Function Point Counting Practices Manual (CPM). Providing a fundamental understanding of the IFPUG Functional Size Measurement method, this is the ideal study guide for the CFPS examination. The text:

- Includes time-tested tips on how to best prepare for the exam
- Provides a series of questions and answers at the end of each chapter with specific references to the latest version of the CPM
- Contains two CFPS practice exams to measure understanding and identify areas where more study is needed

Active members of the Counting Practices Committee and a past president of the IFPUG supply time-tested insight on how to use the CPM manual effectively and efficiently during the exam. The two sample exams and detailed examples throughout the text help to ensure readers develop the comprehension required to attain certification the first time around. Following certification, this book is a valuable reference for applying the IFPUG method for sizing proficient software design, development, and deployment.

Praise for the book:

While there are a number of solid books on counting function points, this new book fills a gap in the function point literature by providing useful information on the specifics of becoming a certified function point counter. The authors are all qualified for the work at hand, and indeed have contributed to the function point counting methodology.

This book is a comprehensive guide for the International Function Point Users Group (IFPUG) Functional Size Measurement method. It has been written to prepare practitioners planning to take the IFPUG Certified Function Point Specialist (CFPS) exam. The guide includes the rules and guidelines defined by IFPUG in the latest release (4.3) of the Function Point Counting Practices Manual (CPM). In addition, it includes examples and questions designed to help readers understand how to apply the IFPUG method, and two CFPS practice exams.

About the Author

David Garmus is a published author and acknowledged authority in the sizing, measurement and estimation of software application development and maintenance. As a co-founder of the David Consulting Group, he supports software development organizations in achieving software excellence with a metric-centered approach.

Mr. Garmus is a Past President of IFPUG and a member of the IFPUG Counting Practices Committee. He has a BS from the University of California at Los Angeles and an MBA from Harvard University Graduate School of Business Administration. He has spoken at numerous conferences and written many articles and books on various measurement related topics.

Garmus is a Certified Function Point Specialist, having fulfilled all IFPUG requirements for this title under all releases of the IFPUG Counting Practices Manual, as well as a Certified Software Measurement Specialist.

Janet Russac has more than 25 years of experience as a programmer, analyst, and measurement specialist in software application development and maintenance. She is the founder of Software Measurement Expertise and leads a team of experienced consultants that offer expertise in function point analysis, software measurement, estimation, auditing, training and mentoring. She is a published author, who presents workshops at companies, professional organizations, and conferences and is often a featured speaker at conferences.

Ms. Russac served as the Chair of the IFPUG Management Reporting Committee from 2002 to 2004 and led the creation of an international industry certification process for individuals in the field of software measurement as Certified Software Measurement Specialists. She currently serves on the IFPUG Counting Practices Committee and the IFPUG Communications and Marketing Committee.

Russac is a Certified Function Point Specialist and a Certified Software Measurement Specialist.

Royce Edwards is a Senior Consultant for Software Composition Technologies, where he applies function point analysis and software estimation techniques to resolve business challenges in software development organizations. He is a software management professional with over 25 years of experience in development, reverse engineering, systems administration, architecture, and software analysis. Mr. Edwards brings an accomplished and unique skill set to software measurement and estimation. He has advised a diverse list of clients in the telecommunications, manufacturing, scientific, government, and information technology areas, and has mastered the adaption of solutions to meet the needs of varied organizational environments.

Mr. Edwards frequently teaches workshops related specifically to web application measurement. He has presented research papers at conferences and has written articles and white papers for various publications. Edwards is a Certified Function Point Specialist (CFPS) and a member of the IFPUG Counting Practices Committee.

Users Review

From reader reviews:

William Vogt:

What do you concentrate on book? It is just for students because they are still students or it for all people in the world, what the best subject for that? Just you can be answered for that question above. Every person has diverse personality and hobby for every single other. Don't to be pushed someone or something that they don't need do that. You must know how great and important the book Certified Function Point Specialist Examination Guide. All type of book would you see on many sources. You can look for the internet methods or other social media.

Thomas Woods:

Book is to be different for each and every grade. Book for children till adult are different content. We all know that that book is very important usually. The book Certified Function Point Specialist Examination Guide was making you to know about other knowledge and of course you can take more information. It doesn't matter what advantages for you. The book Certified Function Point Specialist Examination Guide is not only giving you far more new information but also for being your friend when you really feel bored. You can spend your current spend time to read your reserve. Try to make relationship using the book Certified Function Point Specialist Examination Guide. You never feel lose out for everything should you read some books.

Laverne Dunbar:

That publication can make you to feel relax. That book Certified Function Point Specialist Examination Guide was colorful and of course has pictures around. As we know that book Certified Function Point Specialist Examination Guide has many kinds or category. Start from kids until adolescents. For example Naruto or Private eye Conan you can read and feel that you are the character on there. Therefore not at all of book are make you bored, any it can make you feel happy, fun and chill out. Try to choose the best book in

your case and try to like reading in which.

Raymond Guajardo:

As a scholar exactly feel bored to be able to reading. If their teacher requested them to go to the library or even make summary for some guide, they are complained. Just small students that has reading's heart or real their leisure activity. They just do what the professor want, like asked to the library. They go to there but nothing reading very seriously. Any students feel that reading is not important, boring and can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Certified Function Point Specialist Examination Guide can make you truly feel more interested to read.
