Obama's America: Unmaking the American Dream By Dinesh D'Souza

In this #1 *New York Times* bestselling book, Dinesh D'Souza, the creator of the second highest-grossing political documentary ever, *2016: Obama's America*, lays out Obama's plans through the end of his second administration and warns us how he will harm the country.

America as we know it—wealthy, powerful, assertive—is not what Obama wants. He wants a smaller America, a poorer America, an America unable to exert its will, an America happy to be one power among many, an America in decline so that other nations might rise—all in the name of global fairness. To Obama, the hated “1 percent” isn’t just wealthy Americas; it is America itself. In Obama’s view, America needs to be taken down a notch.

That is the startling conclusion of bestselling author Dinesh D'Souza in *Obama's America*. Building on his previous *New York Times* bestseller *The Roots of Obama's Rage*—which Newt Gingrich called “stunning...the most profound insight I have read in the last six years”—D'Souza shows how Obama's goal to downsize America is in plain sight but ignored by everyone.

D'Souza lays out what Obama plans to do in a second administration—a makeover of America so drastic that the “shining city on a hill” will become a shantytown in a rather dangerous global village. Arresting in its presentation and sobering in its conclusions, *Obama's America* is essential reading for those who want to change America's course before it's too late.

Editorial Review

From the Inside Flap

FROM OBAMA'S AMERICA

Obama is not merely the presiding instrument of American decline, he is the architect of American decline. He wants America to be downsized. He wants Americans to consume less, and he would like to see our standard of living decline relative to that of other nations. He seeks a diminished footprint for America in the world. He detests America's traditional allies, like Britain and Israel, and seeks to weaken them; he is not very worried about radical Muslims acquiring a nuclear bomb or coming to power in countries like Tunisia and Egypt. He is quite willing to saddle future dollars toward this end and if he had been permitted, he would have spent trillions more. He has shown no inclination, and has no desire, to protect America's position as number one in the world; he would be content to see America as number 18, or number 67, just another country seated at the great dining table of nations. The strength of my thesis is that it is completely congruent with who Obama is and what he does. We don't have to assume that he is always getting results opposite to what he intends; we simply have to see that he intends the results he is getting. He emphasized in his inauguration speech his goal of "remaking America"—and he is doing it, recognizing that in order to remake America he must first unmake America. The only question is whether Americans approve of their country being diminished and downsized, and whether they want to give Obama another four years to finish the job.

CAN AMERICA SURVIVE FOUR MORE YEARS OF BARACK OBAMA?

No, because America as we know it—wealthy, powerful, assertive—is not what Obama wants. He wants a smaller America, a poorer America, and America unable to exert its will, and America happy to be one that other nations might rise—all in the name of global fairness. To Obama, the hated "one percent" isn't just wealthy Americans; it is America itself. In Obama's view, America needs to be taken down a notch.

That is the startling conclusion of bestselling author Dinesh D'Souza. Building on his previous bestseller on Barack Obama, *The Roots of Obama's Rage*—which Newt Gingrich called, "Stunning...the most profound insight I have read in the last six years"—D'Souza shows how Obama's goal to downsize America is in plain sight but ignored by everyone.

D'Souza lays out what Obama plans to do in a second administration—a makeover of America so drastic that the "shining city on a hill" will become a shantytown in a rather dangerous global village.

In *Obama's America* you'll learn:

- How Obama plans to use debt as a weapon of economic mass destruction to downsize the United States
- How a second Obama term could be fatal to Israel—and to American interests in the Middle East
- A superpower disarmed: why drastic defense cuts are only the beginning
- How Obama plans to make us *more* dependent on foreign energy suppliers
- What the world will be like when America is a debt-ridden, second-tier economy and other countries, like China, India, and even Brazil, are wealthier and dominant

Arresting in its presentation and sobering in its conclusions, *Obama's America* is essential reading for those who want to change America's course before it's too late.
