## **The Instrumental Music of Schmelzter, Biber, Muffat and their Contemporaries** By Professor Charles E Brewer

Based on primary sources, many of which have never been published or examined in detail, this book examines the music of the late seventeenth-century composers, Biber, Schmelzter and Muffat, and the compositions preserved in the extensive Moravian archives in Kromeriz. These works have never before been fully examined in the cultural and conceptual contexts of their time. Charles E. Brewer sets these composers and their music within a framework that first examines the basic Baroque concepts of instrumental style, and then provides a context for the specific works. The dances of Schmelzter, for example, functioned both as incidental music in Viennese operas and as music for elaborate court pantomimes and balls. These same cultural practices also account for some of Biber's most programmatic music, which accompanied similar entertainments in Kromeriz and Salzburg. The many sonatas by these composers have also been misunderstood by not being placed in a context where it was normal to be entertained in church and edified in court.

Many of the works discussed here remain unpublished but have, in recent years, been recorded. This book enhances our understanding and appreciation of these recordings by providing an analysis of the context in which the works were first performed.

### **Editorial Review**

#### **Review**

'Brewer bases his exhaustive, scholarly and highly readable and illuminating analyses of the work of these three composers and their contemporaries on stylistic considerations.' Classical Net 'Most performers of the repertoire alluded to in the book's title should read it. ... a valuable contribution to our knowledge and understanding of 17th-century Austro-German music...' Early Music Review 'Charles E. Brewer's book is a seminal work about instrumental music of the 17th century in the parts of Europe under Habsburg rule, which Manfred F. Bukofzer mentions only tangentially in his splendid monograph. Even if the reader will not necessarily agree completely with certain opinions, the quantity of knowledge and context compiled in the book is imposing and valuable. No researcher dealing with music of the 17th century will be able to ignore Brewer's book.' Hudební věda

#### **About the Author**

Charles E. Brewer is Associate Professor of Musicology at The College of Music of The Florida State University and Director of the Early Music Ensembles. His research interests have focused on the broader questions of music and culture both during the Middle Ages and Baroque period. Beginning with his dissertation on the music of medieval Poland, much of his published work has been focused on the early music of Central and East Central Europe. He has worked in many of the archives and libraries in the Czech Republic, Hungary, Poland, and Slovakia with the support of the Fulbright-Hays Commission, the International Research and Exchanges Board, the Martha Baird Rockefeller Fund for Music, and the National Endowment for the Humanities. He is also an avid performer on early keyboard instruments and is currently editing a number of unpublished sonatas by C.P.E. Bach.
