A Feminist Ethic of RISK (Other Feminist Voices) By Sharon Welch

A Feminist Ethic of Risk proposes a new model for ethics and new life orientation for social justice. It directly addresses American and European "middle-class despair" over issues and challenges seemingly too large to tackle, such as environmental destruction or racism. Her ethic uproots classical assumptions and opens up the possibility of a strong religious vision or "theology of resistance and hope." This new edition includes a new chapter that situates the feminist ethic of risk in relation to other styles and options in religious ethics today.

Editorial Review

Review

"A Feminist Ethic of Risk is not only a provocative and insightful book but also a very honest one, with an integrity that comes from the author's own experience as a white, middle-class woman who refuses to despair over defeats or escape into the luxury of the privileged. But most of all, it is a book of love and joy." - - - - *Sallie McFague*

About the Author

Sharon D. Welch is Associate Professor of Religious and Women's Studies at the University of Missouri.

Users Review

From reader reviews:

Monica Ceja:

Are you kind of active person, only have 10 or maybe 15 minute in your time to upgrading your mind skill or thinking skill possibly analytical thinking?
