Neonatology: Clinical Practice and Procedures (Pediatrics) By David K. Stevenson, Philip Sunshine, Ronald S. Cohen

Understand the fundamental principles of neonatology and learn evidence-based care strategies

With coverage that strikes the perfect balance between proven management approaches and fundamental principles, this unique resource combines the benefits of a comprehensive neonatology textbook with a practical procedural guide.

You will get a detailed step-by-step instruction on diagnosis, management, and treatment of acute problems of the newborn as organized by organ system, based on the highest level of evidence available, along with a thorough review of topics such as epidemiology, ethics, legal issues in the NICU, monitoring devices, fluid requirements, and enteral nutrition.

Features

- A full-color presentation that includes hundreds of figures and tables
- An emphasis on proven care strategies for improved outcomes
- Detailed procedural instruction
- An organ-system approach when discussing neonatal disorders
- A practical approach to all topics with detailed management approaches and procedures

Neonatology: Clinical Practice and Procedures will prove to be an outstanding refresher for any clinician involved in the diagnosis and management of newborn infants and a valuable instructional guide for junior staff and residents.

Users Review

From reader reviews:

Joseph Cash:

Nowadays reading books be than want or need but also get a life style. This reading addiction give you lot of advantages. Associate programs you got of course the knowledge even the information inside the book in which improve your knowledge and information. The details you get based on what kind of book you read, if you want drive more knowledge just go with knowledge books but if you want feel happy read one along with theme for entertaining like comic or novel. Often the Neonatology: Clinical Practice and Procedures (Pediatrics) is kind of publication which is giving the reader unstable experience.

Bobby Miller:

Playing with family in the park, coming to see the marine world or hanging out with close friends is thing that usually you could have done when you have spare time, after that why you don't try matter that really opposite from that. Just one activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Neonatology: Clinical Practice and Procedures (Pediatrics), you may enjoy both. It is fine combination right, you still wish to miss it? What kind of hang-out type is it? Oh occur its mind hangout fellas. What? Still don't have it, oh come on its called reading friends.

Robert Berman:

Reading a book to get new life style in this 12 months; every people loves to study a book. When you examine a book you can get a great deal of benefit. When you read ebooks, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what types of book that you have read. If you wish to get information about your research, you can read education books, but if you want to entertain yourself you can read a fiction books, this sort of us novel, comics, in addition to soon. The Neonatology: Clinical Practice and Procedures (Pediatrics) offer you a new

experience in looking at a book.

Donald Goodman:

You are able to spend your free time to read this book this guide. This Neonatology: Clinical Practice and Procedures (Pediatrics) is simple bringing you can read it in the park your car, in the beach, train as well as soon. If you did not have got much space to bring the particular printed book, you can buy the e-book. It is make you much easier to read it. You can save the actual book in your smart phone. Consequently there are a lot of benefits that you will get when one buys this book.
