**PWN the SAT: Math Guide** By Mike McClenathan

**NOTE: This book is for the old SAT, which was given for the last time in January of 2016. If you will be taking the SAT after that date, the book you want is also available on Amazon. Search for it by its ISBN number: 9781523963577.**

*PWN the SAT: Math Guide* was created to help ambitious, highly motivated kids maximize their SAT math scores. Do you crave a higher score? Are you willing to do a little hard work to achieve it? Good. I knew I liked you.

Read this book from beginning to end, with a pencil in hand and a calculator and an *Official SAT Study Guide* (AKA Blue Book) by your side. When you're done, you'll be able to approach the SAT with confidence--very few questions will surprise you, and even fewer will be able to withstand your withering attacks.

Stand tall, intrepid student. Destiny awaits.

### Inside you'll find:

- Essential test-taking strategies
- Techniques that make a difference
- The math you need to know
- Challenging diagnostic drills
- Solutions worked out by hand
- Question-by-question breakdowns of the tests in the *Official SAT Study Guide*
- Candy (not really)

### Editorial Review

#### Review

I went through a crapload of resources while studying for the SAT. If you want one that results in EFFICIENT studying, PWN the SAT's book is, without doubt, the best. His problems are also hilarious--you might even enjoy studying for the SAT. :)

*Jeff L., Seattle, WA*

You raised me up from a child to a grown man. I can now say I pwn'd the SAT!!!

*Sulman K., Brooklyn, NY*

#### From the Author

This seems like a good place to answer a few Frequently Asked Questions:

#### What does "PWN" mean?

Basically, it means "to completely dominate." It comes from old school videogaming, when trash talk had to be typed, not shrieked into a headset. Because time spent typing was time spent as a *sitting duck*, nobody ever fixed typos in those days. So "pwn" was a frequent typo of "own" that got legs and is now used in gamer circles on purpose. It's pronounced "pone," not "pawn."

#### Why on earth would you call your book that?

My girlfriend and mom are the most frequent askers of this question. They're convinced that if I changed the name, I'd suddenly sell a million books! But I had a very specific student in mind as I wrote this book: my 15-year old self. I was my school's top math student, but I was dogmatic in my belief that problems could only be solved "the math way." That served me well in every arena except for the SAT, where my insistence on brute-force math, rather than nimble problem solving, cost me a perfect 800.

How do I know it cost me a perfect 800? Because now, years removed from that experience, I get perfect 800s doing the test the way I describe in this book--*and I have fun doing it*. I wrote this book to try to help kids like the Old Me (strong math students who aren't happy with their SAT scores) learn to approach the test like the New Me. I *love* math, and there's plenty of it in the book, but there's also a plethora of alternative solutions.

#### Will I like this book if I didn't know what "pwn" meant until just now?

If you're a strong math student who's looking to improve your SAT score, then I think so. The book isn't full of words like "pwn"--just the title.

#### What makes this book better than all the others available?

"Better" is in the eye of the beholder, but here are a few things that make my book unique:

- Each chapter is followed by a listing of all the questions in the College Board's own *Official SAT Study Guide* (AKA "Blue Book") that are susceptible to the techniques I've just described. This is not the kitchen-sink approach to test prep--the techniques I advocate will apply on the real test.
- The back of the book contains another breakdown of each test in the Blue Book. This one helps students keep track of their mistakes and identify topics they need to work on.
- Each of the drills in my book has hand-written solutions. I think it's helpful to see math worked out the

same way a student will have to do it on test day.

- I don't spend too much time on the basics kids already know; I get right into the stuff I always see students struggle with.
- Owners of the book can access exclusive additional content (videos, quizzes, and more) through the Math Guide Owners Area of PWNtheSAT.com.

#### From the Back Cover

The PWN the SAT Math Guide was created to help ambitious, highly motivated kids maximize their SAT math scores. It contains healthy doses of test-taking strategies, mistake-minimizing techniques, and actual, honest-to-goodness math.

Inside you'll find short, specific drills for all major SAT concepts, and longer diagnostic drills designed to identify weak areas. Solutions for each drill question are worked out by hand.

You'll also find question-by-question breakdowns of all the tests in The Official SAT Study Guide (AKA The Blue Book), both by test (so you can brush up on appropriate techniques for the questions you miss) and by concept (so you can see all the myriad ways the SAT might test your knowledge of, say, right triangles).

If you read this book from beginning to end, with a pencil in hand and a calculator and Blue Book by your side, then you will be able to approach the SAT with confidence, knowing that very few questions will surprise you, and even fewer will be able to withstand your withering onslaught.

Stand tall, intrepid student. Your destiny awaits.

## Users Review

### From reader reviews:

#### **Brenda Carey:**

Do you one of people who can't read pleasant if the sentence chained within the straightway, hold on guys this particular aren't like that. This PWN the SAT: Math Guide book is readable simply by you who hate the perfect word style. You will find the data here are arrange for enjoyable studying experience without leaving perhaps decrease the knowledge that want to give to you. The writer regarding PWN the SAT: Math Guide content conveys the idea easily to understand by many individuals. The printed and e-book are not different in the articles but it just different available as it. So , do you nonetheless thinking PWN the SAT: Math Guide is not loveable to be your top listing reading book?

#### **Beatrice Rogers:**

Reading a book can be one of a lot of pastime that everyone in the world adores. Do you like reading book thus. There are a lot of reasons why people enjoyed. First reading a book will give you a lot of new information. When you read a book you will get new information simply because book is one of numerous ways to share the information or even their idea. Second, reading a book will make a person more imaginative. When you studying a book especially fictional works book the author will bring that you imagine the story how the people do it anything. Third, it is possible to share your knowledge to others. When you read this PWN the SAT: Math Guide, you are able to tells your family, friends and also soon

about yours publication. Your knowledge can inspire the mediocre, make them reading a reserve.

**Mark Miller:**

People live in this new moment of lifestyle always try to and must have the free time or they will get wide range of stress from both daily life and work. So , when we ask do people have free time, we will say absolutely indeed. People is human not just a robot. Then we request again, what kind of activity have you got when the spare time coming to anyone of course your answer may unlimited right. Then do you try this one, reading ebooks. It can be your alternative throughout spending your spare time, typically the book you have read is definitely PWN the SAT: Math Guide.

**Helen Massey:**

As a scholar exactly feel bored for you to reading. If their teacher asked them to go to the library or to make summary for some e-book, they are complained. Just small students that has reading's internal or real their pastime. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that reading through is not important, boring as well as can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this PWN the SAT: Math Guide can make you really feel more interested to read.
