Q&A with Denisa Mina

Q: Denise, you've had tremendous success writing crime novels for over a decade. What about the comic book industry or medium keeps you coming back?

A: I'm lucky enough to get to do what I call a "joy project" once or twice a year. Writing novels is hard work and can feel a bit of a grind sometimes so usually I write a play or a comic or a documentary and I was just thinking about how I'd love to do some more comics when this came up. It's such a different form of storytelling from prose, it really refreshes me.

Q: What is different between writing a crime graphic novel, such as *The Girl with the Dragon Tattoo*, versus crime novels?

A: Well, comics are such a stripped back form of narrative, there's nowhere to hide shoddy plotting or confusion. No character can go off and have a realization when you haven't plotted properly, no character can suddenly change their mind, everything has to be on the page and shown in action. That's very different. In this instance *The Girl with the Dragon Tattoo* wasn't my story either so I already knew what was going to happen, which I don't usually when I'm writing a novel. It's much easier!

Q: What type of obstacles, if any, did you face in adapting such a popular and iconic book in modern literary fiction?

A: I think you have to forget how much people love these books and just get on with trying to make it work for you and your editor. They are the fresh pair of eyes that can tell you when something is tedious or doesn't work. That sounds arrogant but you'd be paralyzed otherwise.

Q: *The Girl with the Dragon Tattoo* has more than a few scenes of graphic violence, especially toward women. Has it been difficult writing these types of scenes for the graphic page as opposed to the printed one?

A: I think it's easier actually. I tried to use panels that show the attack from the woman's point of view and use the visual language or graphic scenes—the bum shots, the twisted face into camera, the full body shots—only during the attack on the male character. It was a way of disorientating the reader and making them uncomfortable because visuals of sex are so familiar [...] that they often appear in visuals of sexual attacks. From the victim's point of view there's nothing sexual about that sort of thing.

Q: Lisbeth Salander is one of the most complicated and fascinating fictional characters in the last decade. What do you feel is the most essential aspect to her?

A: She has a hundred different defense mechanisms: disguise, aggression, hacking, etc., and she has finally found a way to make them work for her in the world.

Q: Do you find yourself adapting your writing differently to each artist on *The Girl with the Dragon*

***Tattoo*, Andrea Mutti and Leonardo Manco, and to their creative strengths?**

A: Not really. I can only describe the images in my head but they always do visuals that surprise and delight me. I'm not really that visual, I tend to think in words.

Q: You've worked on a monthly comic book (*John Constantine: Hellblazer*), as well as a few graphic novels. What is the difference between the two?

A: Well, a monthly has to have a narrative arc that spans twenty-two pages and then adds up to form another distinct arc for six episodes for the trade paperback. The graphic novels are a scoosh compared to that, believe me. Also the monthly comics have to be written to a very strict episodic schedule and graphic novels, not so much.

Q: So far, you've worked on a few projects for Vertigo, including *John Constantine: Hellblazer*, as well as the Vertigo Crime original graphic novel *A Sickness in the Family*. Could you ever envision yourself working on something for the mainstream DC Universe?

A: I'd give anything a go, with the proviso that if I make a hash of it they don't use it. Comic editors can be pretty straightforward and I think they'd tell you!

Q: What do you hope that part one of *The Girl with the Dragon Tattoo* communicates that the novel or film did not?

A: In the book Salander's mother has been beaten half to death by her father and is brain damaged because of it. This didn't really come over in the films (in the American version her mother isn't in it). I think this is hugely significant and she cannot let herself be a victim, which is what makes her a hero.

The two pages Leo Manco has done for this are the best pages of graphic art I think I've ever read. I can't even imagine how that could be done in any other medium, either.

No successful franchise is complete without its comic book, and here Larsson's staggeringly successful novel, which spawned both Swedish and American film adaptations, comes full circle with a full-color graphic novel. The choice of Mina as scripter is key, however, to keeping this from being just one more piece of merch. The respected Scottish crime writer (*The End of the Wasp Season*, 2011) does an admirable job of distilling Larsson's wordy prose to its essence while still putting her own stamp on the story with a slightly warmer Salander. The art, by Manco (*Hellblazer*) and Mutti (*The Executor*, DMZ), works well, conveying the various layers of story line effectively (if not entirely elegantly: some of the figuring has a weird photorealism that may not appeal to all tastes). The problems, if there are any, aren't really the fault of the creators. But with two filmed, phenomenal Salanders in many readers' minds, this latest version can only

be seen in comparison—and, frankly, she's one step away from becoming a visual cliché. Any readers who felt uncomfortable about Larsson's brand of feminism in the novels won't have anything to cheer about here. Mina adds full-page panels with harrowing statistics about violence against women, but, like so many comics, this one trades in male readers' interest in the female form—and seeing Bjurman's vicious rape of Salander interleaved with much happier couplings may not be the best way to make the point. Does this work on its own merits? Yes. Readers who don't know the story, if there are any, will be intrigued by Blomkvist's investigation on Hedeby Island. And those who have consumed both the novel and films will be intrigued by what's been left out or tweaked here. But the question remains: How many versions of the same story do we really need? **HIGH-DEMAND BACKSTORY:** With a \$500,000 media budget, DC's crime imprint is betting that the public wants more. Each book in the Millennium Trilogy will be told in two volumes. --Keir Graff
